OMITS

Olimpiade Matematika ITS

OMITS is one of the prestigious national level mathematics olympiads organized by ITS Mathematics Department where this event is divided into two, namely Olimpiade Matematika ITS 2024 (OMITS 2024) and Mathematics ITS Calculus Competition 8.0 (Mission 8.0). In 2024, OMITS has a theme namely The Bizzare Dimension, which describes strange mathematics, full of unclear mysteries that require deep understanding to be able to solve the problems. In this way, the design visualization is likened to the ruins of an Egyptian temple with varying shades of color to show the strange and infinite variety of dimensions within it.

HDE ITS

HeroesDay Esports ITS

HeroesDayEsports ITS is one of the Student Activity under the auspices of the Lembaga Minat Bakat ITS. This year, the Cabinet that oversees HDE ITS is the Progressive Cabinet. With red and green colors showing the members burning individually but still synergizing as one unit, then dominated by dark blue which makes the red and green even brighter.
